Report of the Incident of the Polling unit A
At my Polling unit was Smoothly and everything was going well the Logging. But at the end of the election one of the agent got angry and started everything collect the BVAS machine, and Smash it on the ground, tear the result, pour everything inside the dirty water. But I was able to transmit my result because the BVAS was not destroyed and I quickly copy the numbers of Voters of each party on the result that one I pasted before they tear the result. I The rough sheet is with me and present to the E.O. This is what happened in my polling unit.

Yours faithfully
Thanks
Salawudeen Sirdat
