Report on the results of the election

I, Idowu Idunomimo A. hereby explain the reason for the results of the election exercise held by I and the members of Polling Unit 028.

At the end of the election exercise, the chairmanship election ended with the result of 203 accredited votes and a total of 242 used ballot papers in the exercise which led to 240 valid votes because two votes were repeated votes.

The reason why there is a lower total of accredited votes compared to the total number of valid votes is because during the election exercise, due to various reasons, the votes were issued two chairmanship ballot papers by mistake which resulted in the total number of accredited votes being higher than the total amount of used chairmanship ballot papers as the chairmanship ballot papers were
