LETTER OF COMPLAIN OF VIOLENCE

There was crisis at Gube Kofar Sarki, which led to the distruction of INEC materials. I, PO called on the security personnel, they came but they were unable to arrest the situation because the people were already aggrieved for not being able to collect their permanent voted card from INEC and some factions insisted that there will be two different queues for the two major political parties, they started fighting each other and destroying INEC materials and elections was un-able to hold in the polling unit.
