REPORT OF VIOLENCE ATTACK ON RESULT COLLATION AT POLLING UNIT 004

I am writing to bring to your notice about the violence attack that took place at polling unit 004 of Iperere registration area during the course of counting and collation of result after the voting procedure ended. During the course of counting the votes, the polling unit was attacked by armed hoodlums which led to the destruction of the ballot box, ballot papers which has been voted on and the cubicle was also destroyed. Effort to protect these materials proved abortive as we have to protect ourselves for safety.
