

WARD 9 UNIT 2 REPORT OF THE ELECTION

I the presiding officer and the APO I and APO II started the election process on arrival at Enne ward 9 unit 2 before we were intercepted with gun shot and we ran away into hiding until police and army officers who came to rescue us from our hiding about and half hours later.

On our way out of Enne, the Community chairman pleaded with the officers to take us back to complete the election process and we were taken back and continued the election process under duress as they brought back the ballot boxes that went missing.
