ELECTION REPORT AT polling unit

We held election at polling unit 37-03-01-001 (Dagiri infront of village head house) 25th-02-2023 which was obstructed by hoodlums, The hoodlums destroyed all electoral materials at the polling unit which include ballot boxes, ballot papers, cubicles. and other non sensitive materials, except the bvas which we took along while we ran for safety.

There after some security agents came to the polling unit to quell the uproar and normalcy was restored in the polling unit

We were then asked to Commence the election by some dreadful men which we have to succumb to their request to ensure our safety.

At the end we convince them we cannot count the vote at the polling centre due to insecurity which was our alibi of escaping whatever may come

therefore we proceeded to our Registration Area Centre and the election was declared not contested by the presiding officer.
